

Please do not override the FM K-LOVE stations with LPFM. K-LOVE is one of the very few stations that broadcasts music free of "hate-filled lyrics," or unwholesome lyrics, or DJs who make fun of other people. When our kids go to school hearing the adult DJs "bullying", what can we expect except the same from our kids? K-Love is a good alternative. I love listening to K-LOVE on my way to work. It just starts my day off in a positive, uplifting way. I don't know what percentage of the population is Christian but I think we should have our rights to listen to Christian broadcasting and music. We (the listeners) support K-LOVE ourselves. However many people listen to the stations are enough to keep them on the air. When people are hearing positive and relaxing music, they are less likely to have road rage and drive in an irresponsible way causing traffic incidents so in that way, it is in the public interest to keep K-LOVE on the air. Please do not over-ride K-LOVE and other stations like it with LPFM stations.
